April 18th, 2024.

Dear Hiring Team,

I am writing to express my keen interest in the data analysis teaching position at GWC tech school, Enugu, Nigeria.

My name is Emmanuel, and my background and expertise uniquely qualify me for this role.

As a passionate data analyst, I have witnessed firsthand, the transformative power of data in enhancing daily business processes. I began my career in technology as a website designer but I was most passionate about knowing why things happen and this led me to data analysis.

My good foundation in mathematics and statistics also helped smoothen my transition into data analytics, providing me a unique advantage in delivering insights that are not only actionable but also highly relevant to business goals. I am proficient in gathering, cleaning, analyzing and interpreting data to provide valuable insights for businesses. My track record demonstrates a consistent ability to contribute positively to the teams I work with. During my data analysis and storytelling internship at Hamoye, I consistently ranked among the top 5 interns, for my excellence in data analysis, visualization, and storytelling.

Additionally, I bring a strong and fresh educational foundation to this position, having just graduated as one of the top students in electronic engineering at the University of Nigeria, Nsukka (CGPA:4.31). My five years of engineering education exposed me to digital technologies, and problem solving, enabling me to quickly adapt to new tools and dynamic work environments. I have also accumulated over four years of experience in building projects using various programming languages, including Python, MATLAB, and SQL, among others.

With these experiences and my unwavering commitment to continuous learning, I am confident that I can make a significant contribution to your organization if granted the opportunity to serve in this role. I am eager to discuss how my skills and background align with the needs of your organization.

Thank you for considering my application. I look forward to the possibility of contributing to your team.

Sincerely,

Emmanuel Amadi.
